## SKILLS

- **Soft skills:** Quick Learner, Hard Working, Problem Solver, Good Communicator
  - **Specializations:** IoT Devices, Full-Stack Development, iOS Applications
  - **Languages Used:** HTML, CSS, JavaScript, Java, Swift, C++
  - **Tools Used:** VS Code, GitHub, IntelliJ, Xcode, Firebase
- 

## PROJECTS

### Da Bell iOS App

- Created the iOS app for a group project made as a Ring Doorbell alternative. The app pulled images, links, and videos from the cloud storage from Firebase and formatted the data in an app for the iPhone.
- Technologies used: **Swift, Firebase**
- [Link to GitHub](#)

### My Own Cardial – Heartrate Device, Website, and iOS App

- Created IoT device to record heart pulse data and send the data to the Firebase cloud. From the cloud, the iOS app can pull the data and graph the heartrate as an ECG and access heart rate history stored in the cloud.
  - Technologies used: **HTML, CSS, JS, C++, Swift, Firebase**
