Mobile:	+1 (925) 428-4049	**Portfolio:**	https://collintrump.com/

SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Java, (Some C++ & Swift)
- **Libraries/Frameworks [in Progress]:** Node.js, React.js, RESTful APIs
- **Databases [in Progress]:** MongoDB, Firebase, SQL, NoSQL
- **Technologies:** VS Code, Xcode, GitHub, IntelliJ

PROJECTS

Da Bell iOS App

- Created the iOS app for a group project made as a Ring Doorbell alternative. The app pulled images, links, and videos from the cloud storage from Firebase and formatted the data appropriately in an app for the iPhone.
  -
- Technologies used: **Swift, Firebase**
- Link to GitHub

My Own Cardial – Heartrate Device, Website, and iOS App

- Built an IoT device to record heart pulse data and send the data to the Firebase cloud. I then created a website that can pull and format the data, graph the heartrate as an ECG, and provide access to the heart rate history stored in the cloud. Finally, I made an iOS app that opens the website as a web view formatted for mobile screens.
  -
- Technologies used: **HTML, CSS, JS, C++, Swift, Firebase**

EDUCATION

B.S. Computer Science
San Diego State University
2019 – 2023
GPA: 3.49

High School Diploma
Connecting Waters Charter School
2015 – 2019
GPA: 4.00

CERTIFICATIONS

Web Developer Boot Camp 2023 - Udemy

(In Progress, Completion by Dec. 2023)
